ALEX WALLER

SUMMARY

Front End Developer with extensive experience in creating dynamic and responsive web applications. I have experience with modern tech stacks, using technologies like Next.js, React, Tailwind CSS, and various headless CMSs. All while leveraging composable architecture to deliver seamless user experiences. I have also worked extensively with eCommerce solutions for both B2B and B2C markets.

Also adept at managing comprehensive IT operations, demonstrated by successfully running the entire IT department at Premier Mortgage Lending. Responsibilities included overseeing network management, Active Directory, hardware maintenance, data backups, and more. Passionate about problem-solving and continuous learning, with a positive attitude and a knack for quickly adapting to new technologies and challenges. My ability to design and develop custom websites and web applications independently has been showcased through numerous successful projects for local businesses. I am eager to bring my technical expertise and enthusiasm for front-end development to a new and dynamic team, contributing to innovative and impactful projects.
